You'll earn money by watching specific youtube videos which is 100% automated. You will be earning money in your sleep.

## Download Extension

Our extension is a Chrome extension which only works for computers, both Windows and MAC.

Since our extension is designed to rank Youtube videos, it can't be approved in the Google Chrome Play Store.

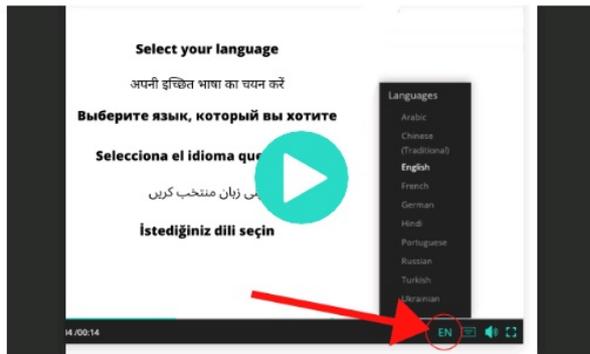

Our extension can work in Developer (Dev) mode and it takes only 1 minute to install.

[You will need to view our download tutorial \(video or pdf\) below to install our dev mode extension.](#)

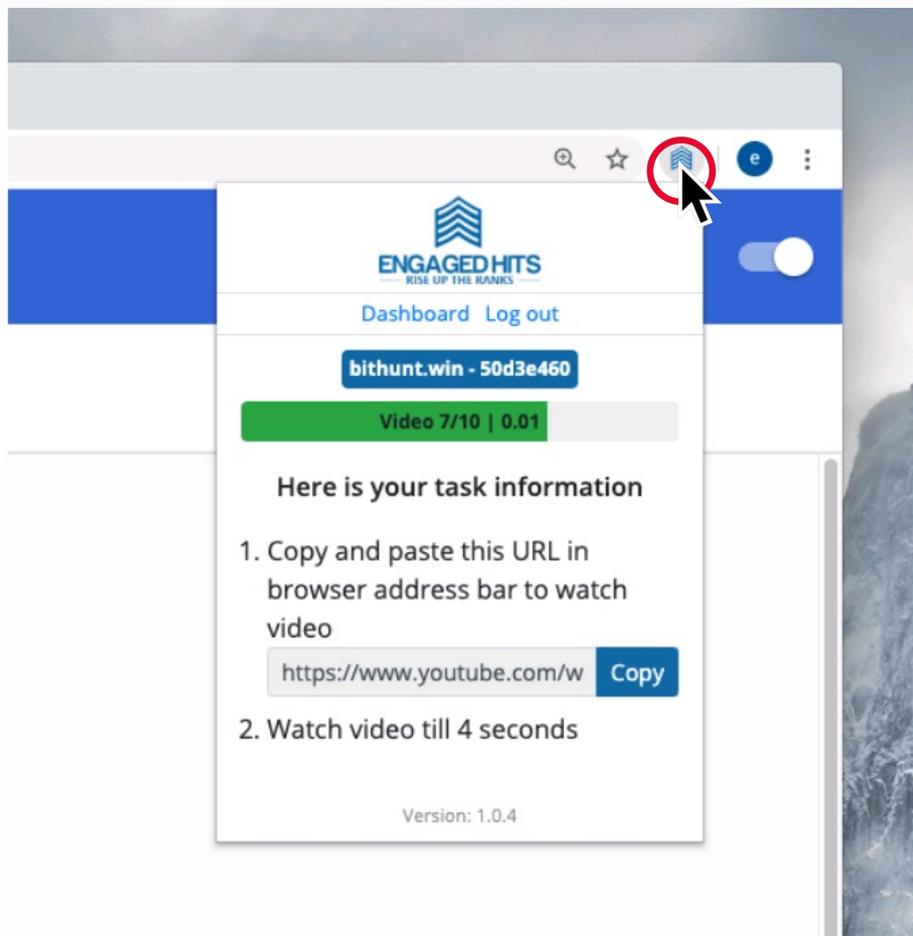

Note: If your computer doesn't already have a Zip program, check out 7-zip which is free.

### VIDEO TUTORIAL

### SCREENSHOTS WITH TEXT TUTORIAL

By downloading and installing our Google Chrome extension you'll have the ability to start earning immediately.

Next we'll show you step-by-step how to download and install our Google Chrome extension. so that you can start earning right away.

## Download Extension

Our extension is a Chrome extension which only works for computers, both Windows and MAC.

Since our extension is designed to rank Youtube videos, it can't be approved in the Google Chrome Play Store.

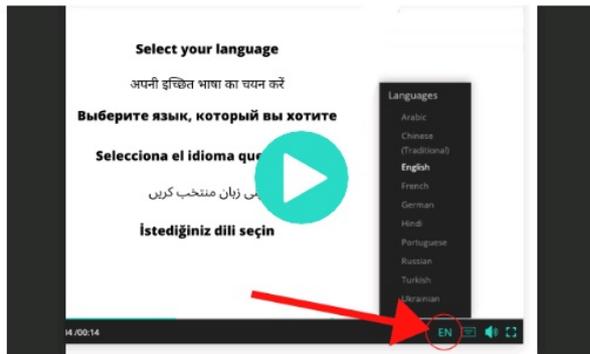

Our extension can work in Developer (Dev) mode and it takes only 1 minute to install.

[You will need to view our download tutorial \(video or pdf\) below to install our dev mode extension.](#)

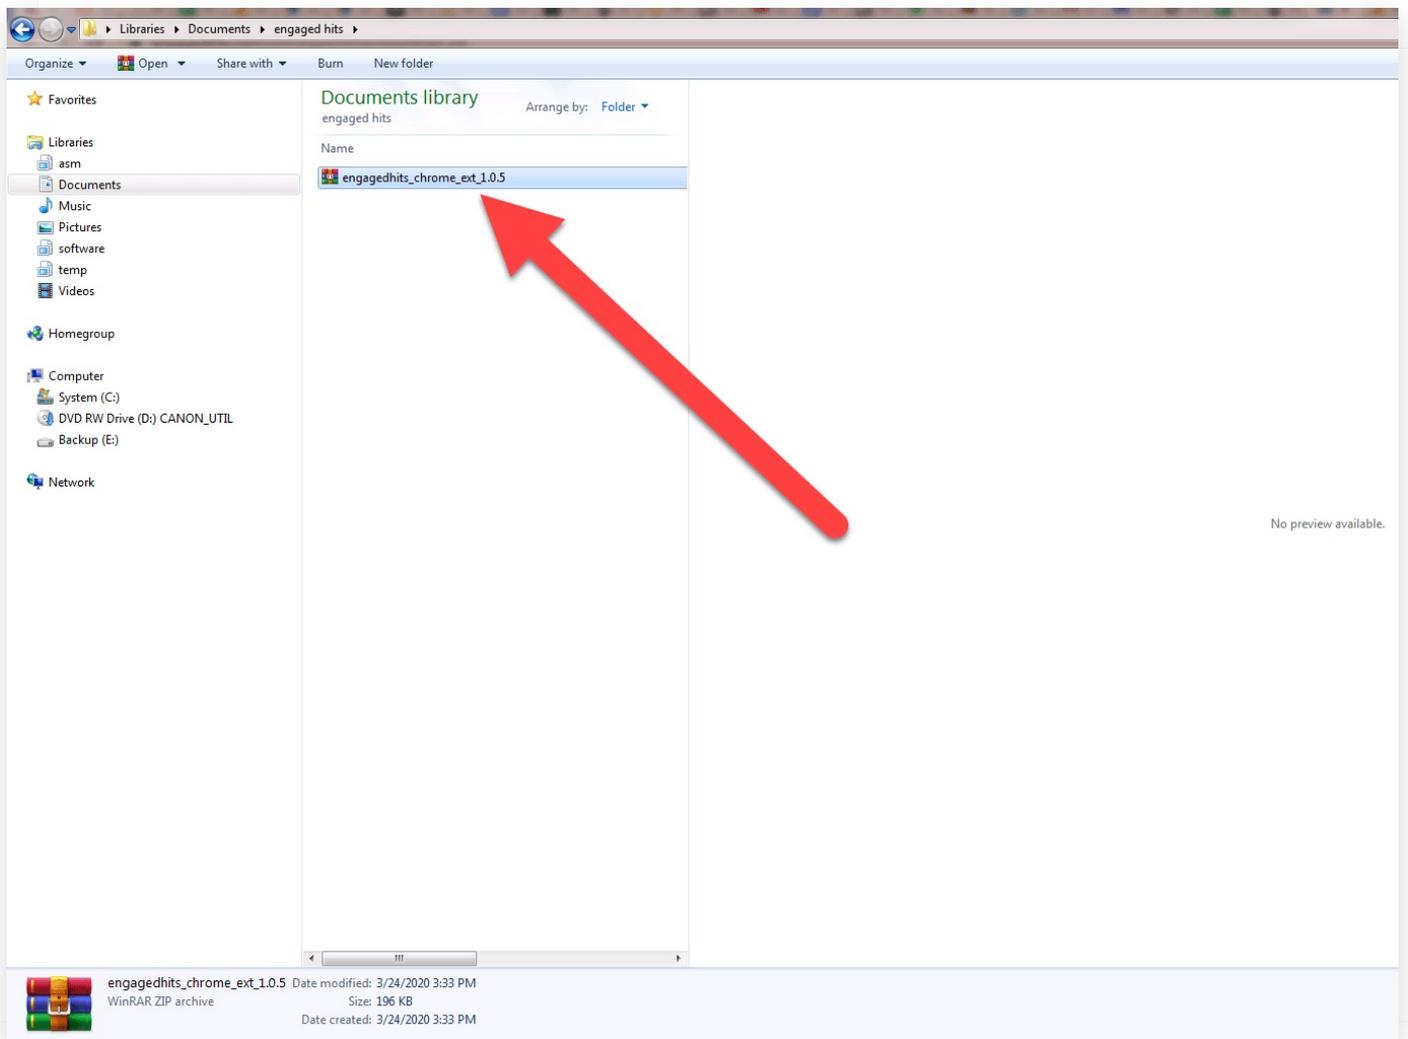

Note: If your computer doesn't already have a Zip program, check out 7-zip which is free.

### VIDEO TUTORIAL

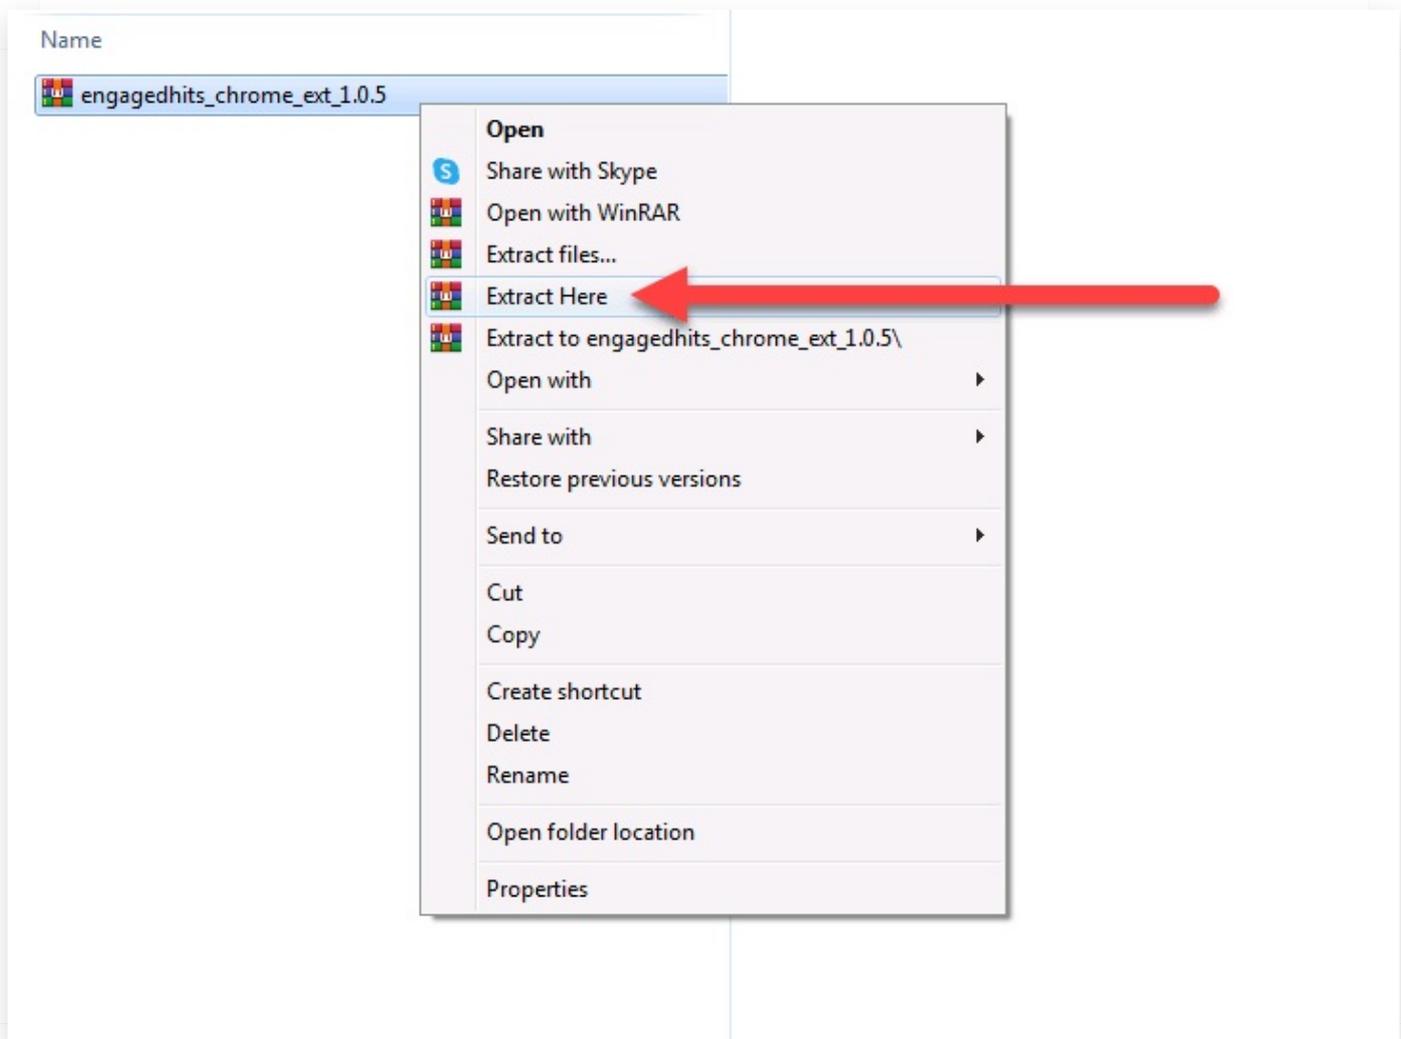

### SCREENSHOTS WITH TEXT TUTORIAL

First, click "Download Extension"

Next, you will want to extract the zip file you just downloaded. The zip file should look something like this.

Right click on the zip folder and then choose 'extract here'. This is for Window users. For for MAC users you might have to select 'open with'.

# Documents library

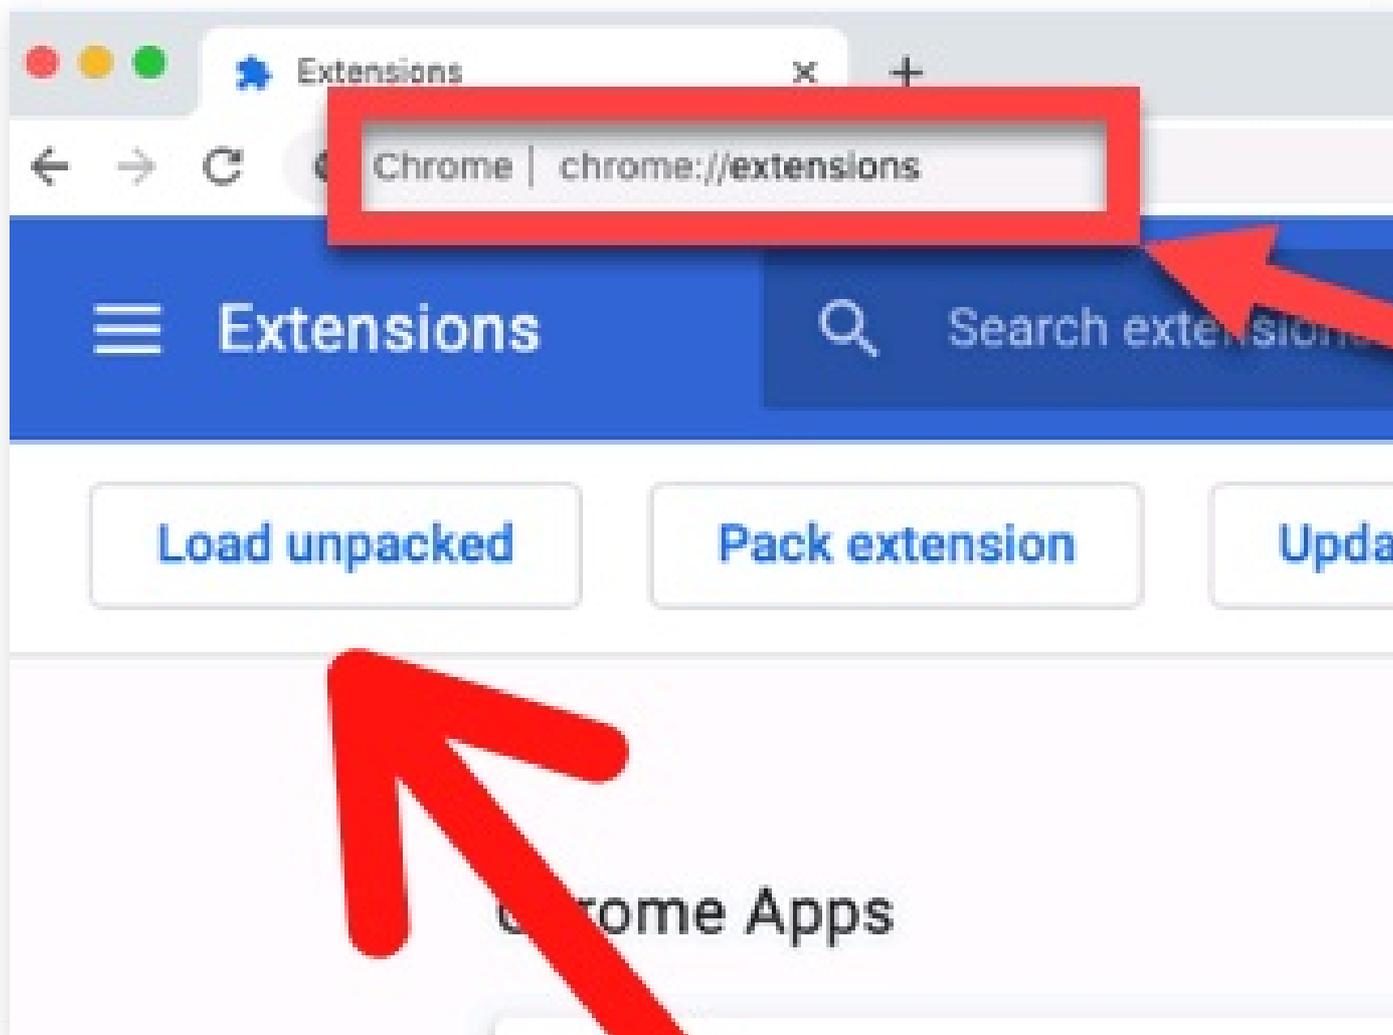

engaged hits

Arrange by: Folder ▼

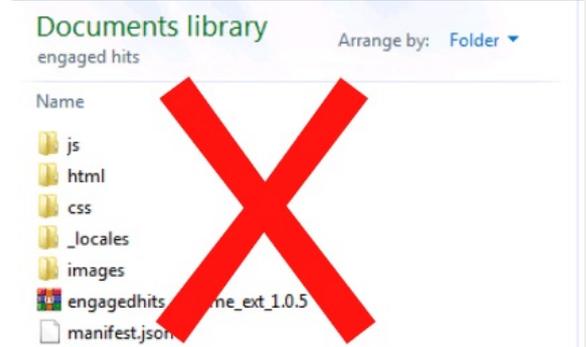

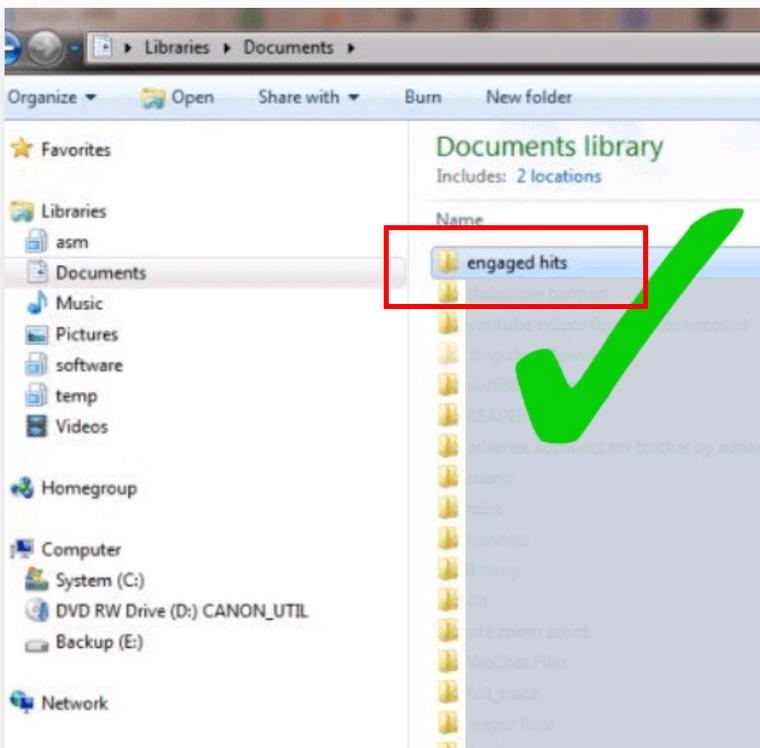

Name

-  js
-  html
-  css
-  \_locales
-  images
-  engagedhits\_chrome\_ext\_1.0.5
-  manifest.json

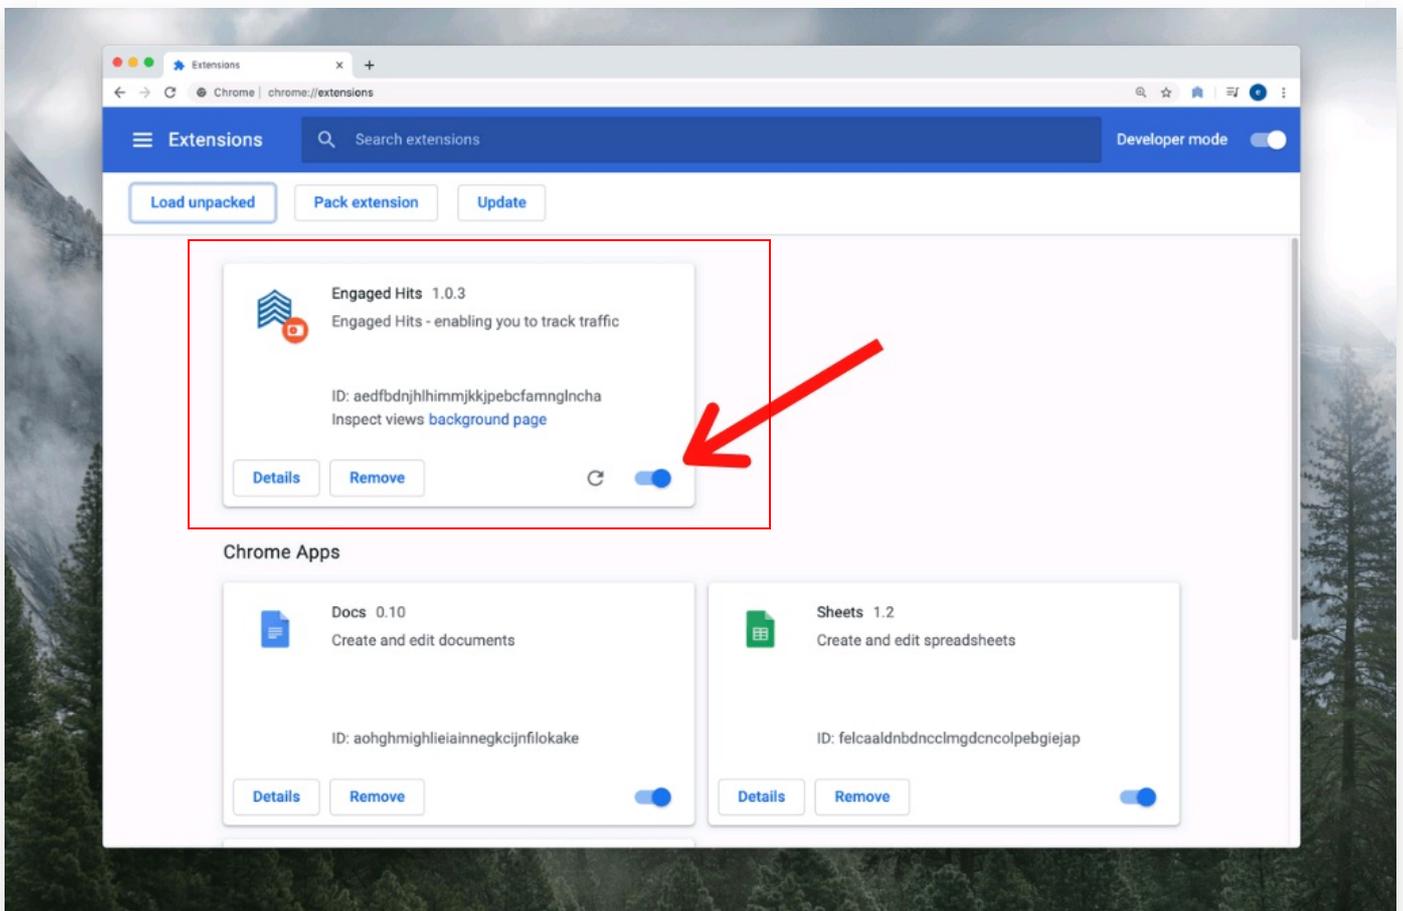

Once extracted, the files should look like this within the folder.

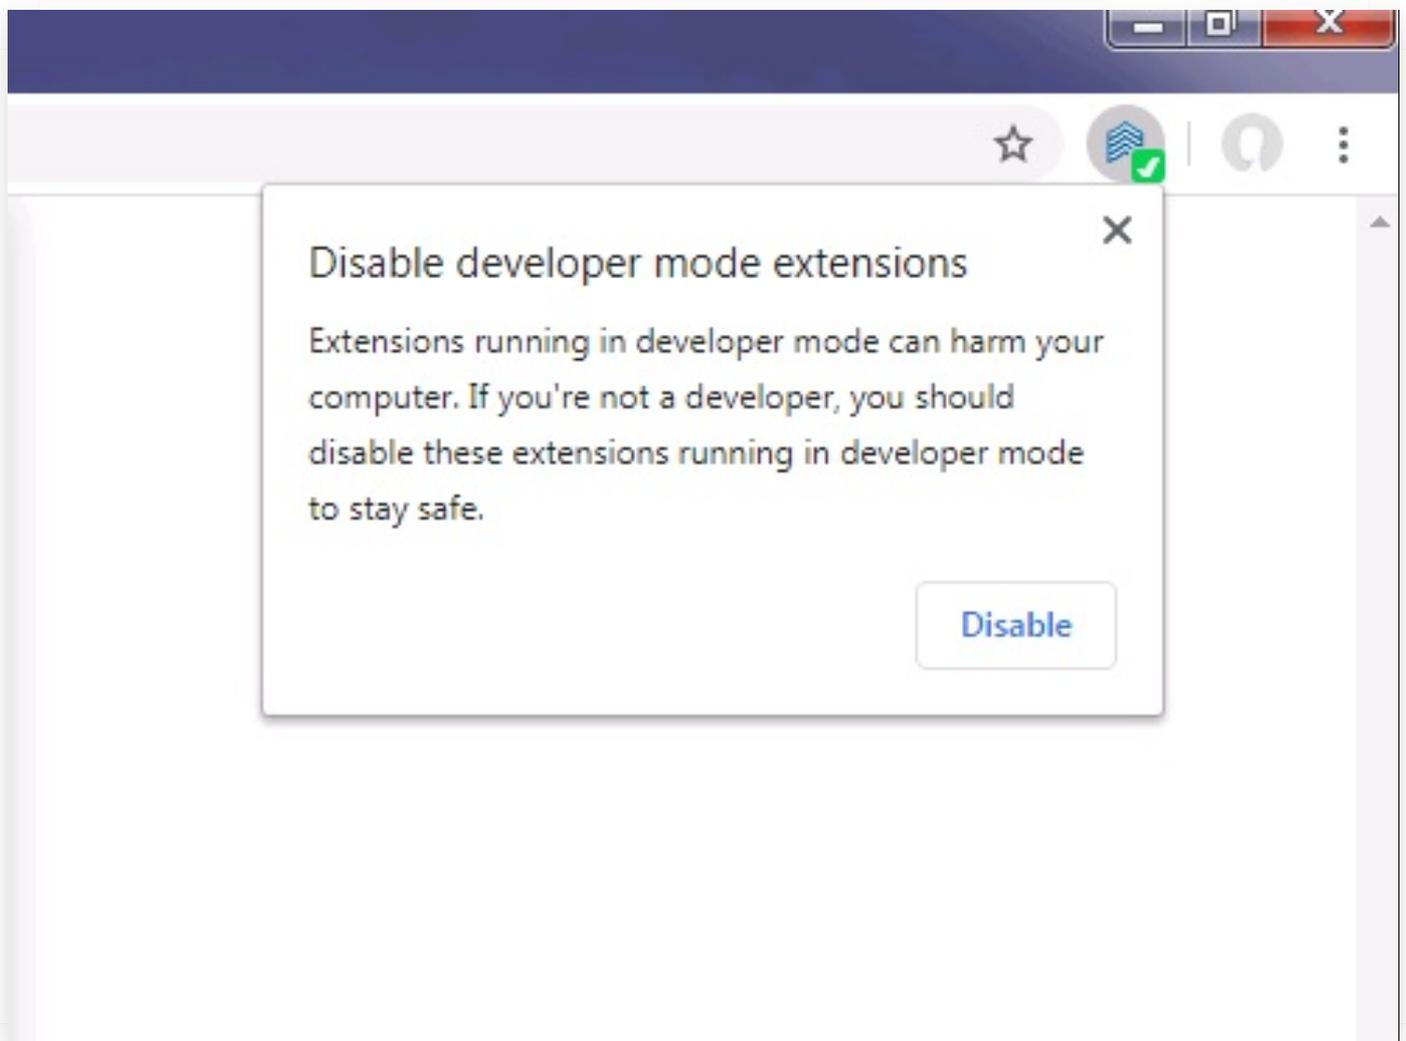

In your Chrome browser, go to your extensions. Look at the url bar closely in the red box. Then, click on "Load unpacked".

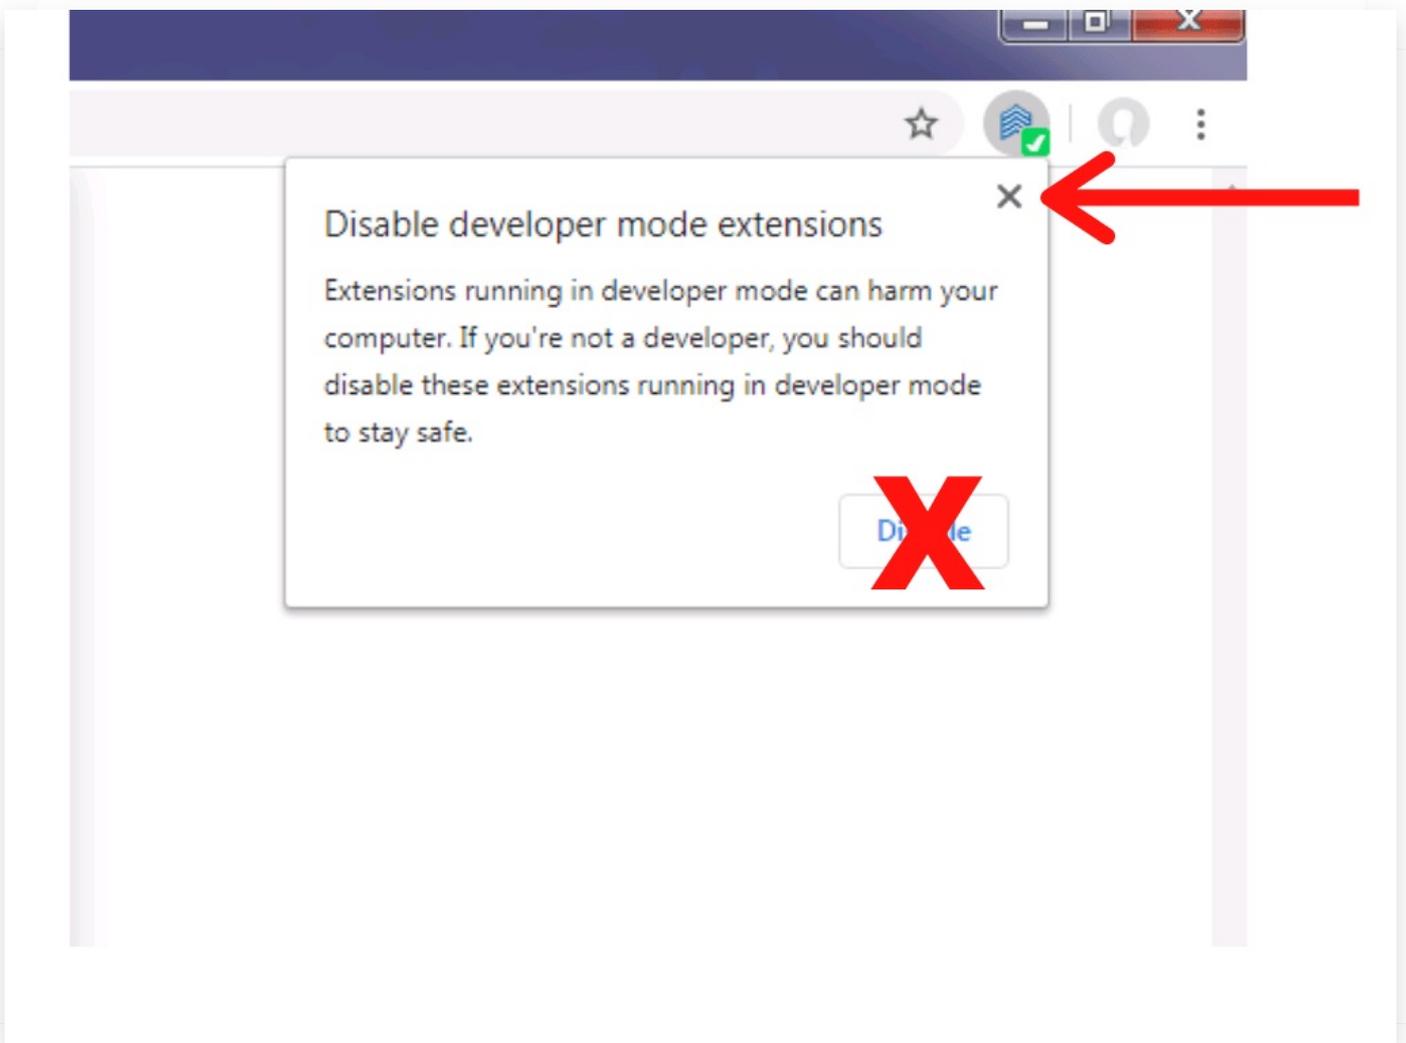

Select the folder that contains the extracted files you downloaded.  
Please note, you only want to select the main folder and not any  
specific file within.

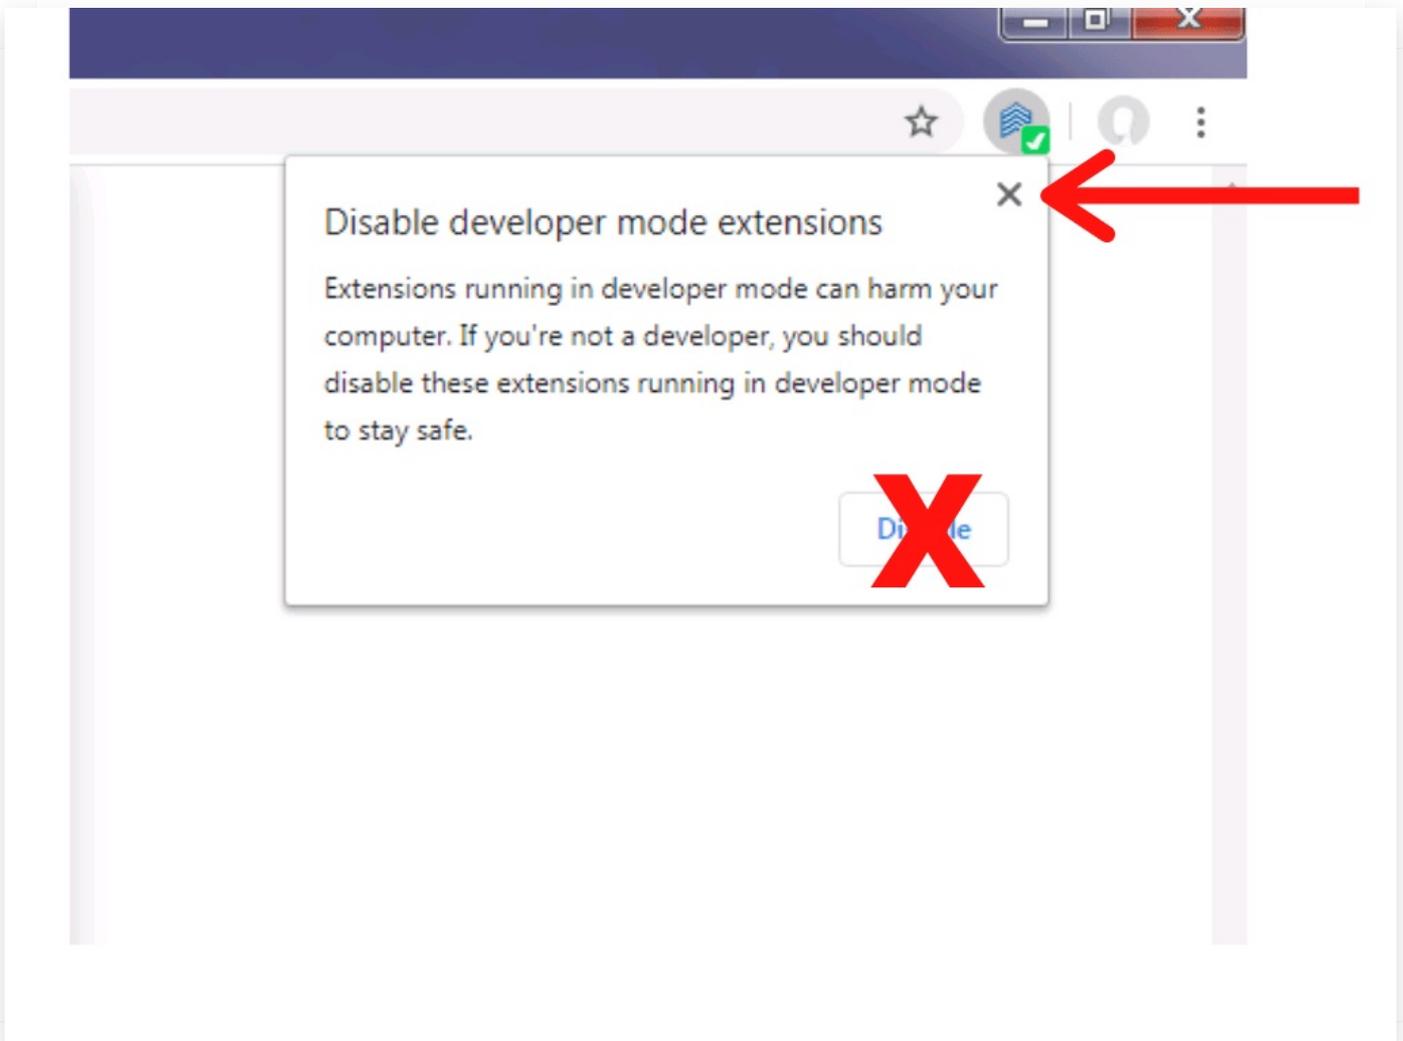

Now the extension is loaded and ready to use. Make sure the toggle button is moved to the right as this means the Extension is turned on and activated.

Since our extension is in development mode, every time you restart your computer or quit your Chrome browser you will see the following warning message.

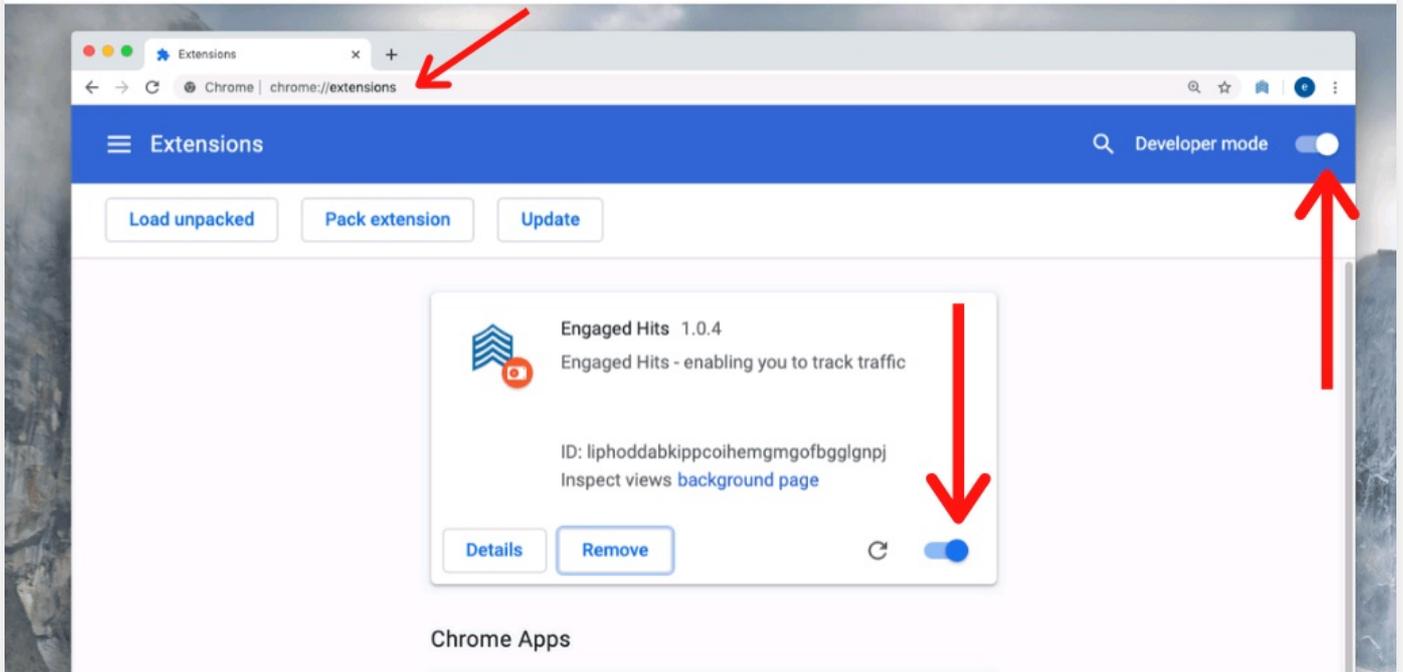

Be sure to only click on the small x at the top right of the pop up warning. Never click on the disable button.

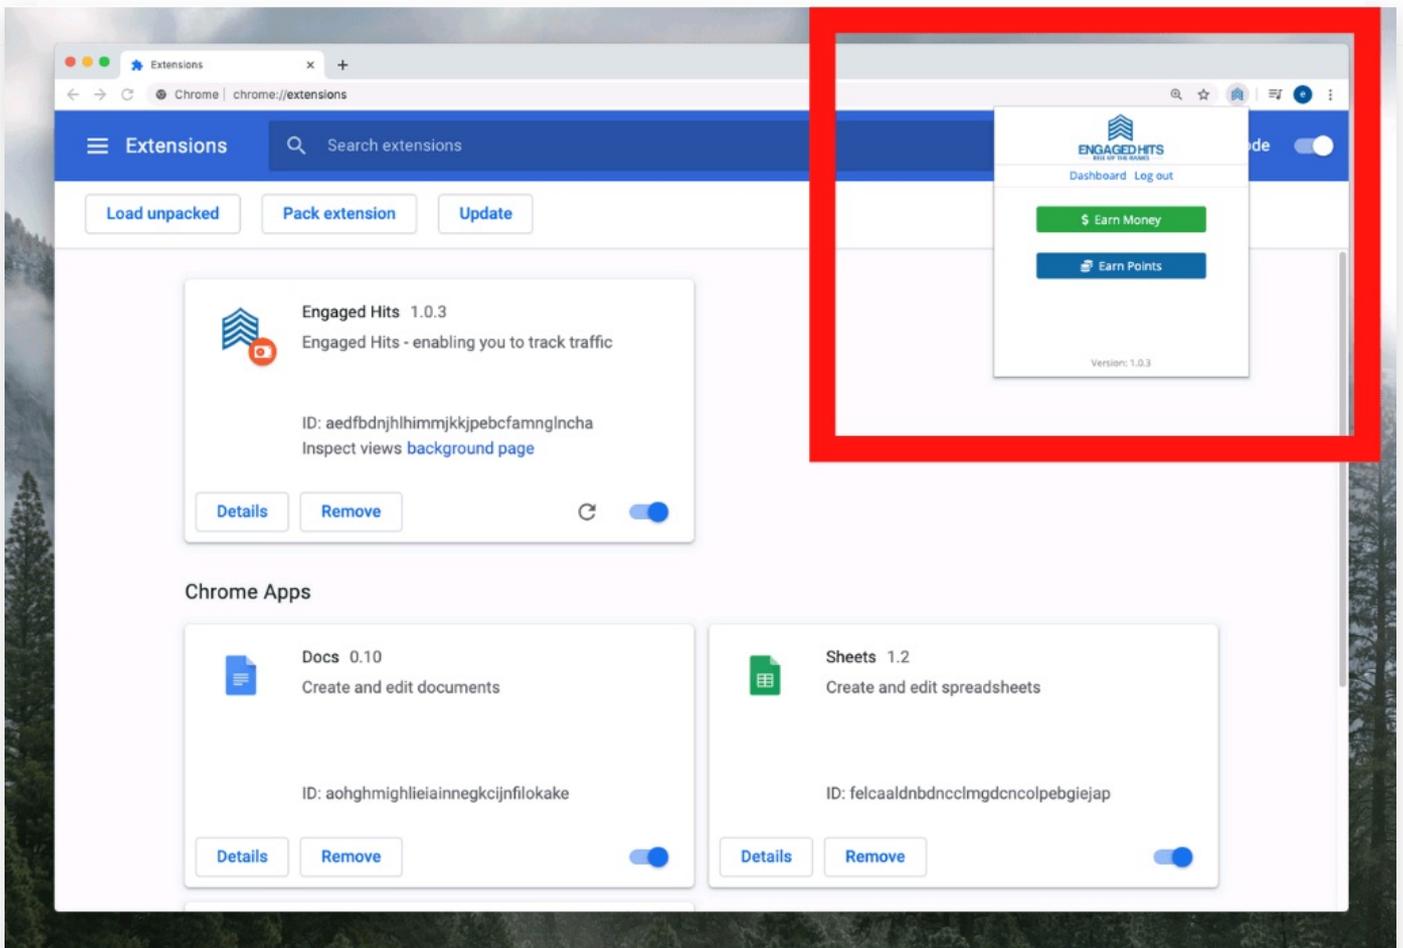

Rest assured, this extension will not harm your computer in any way. Google just shows this as a generic warning.

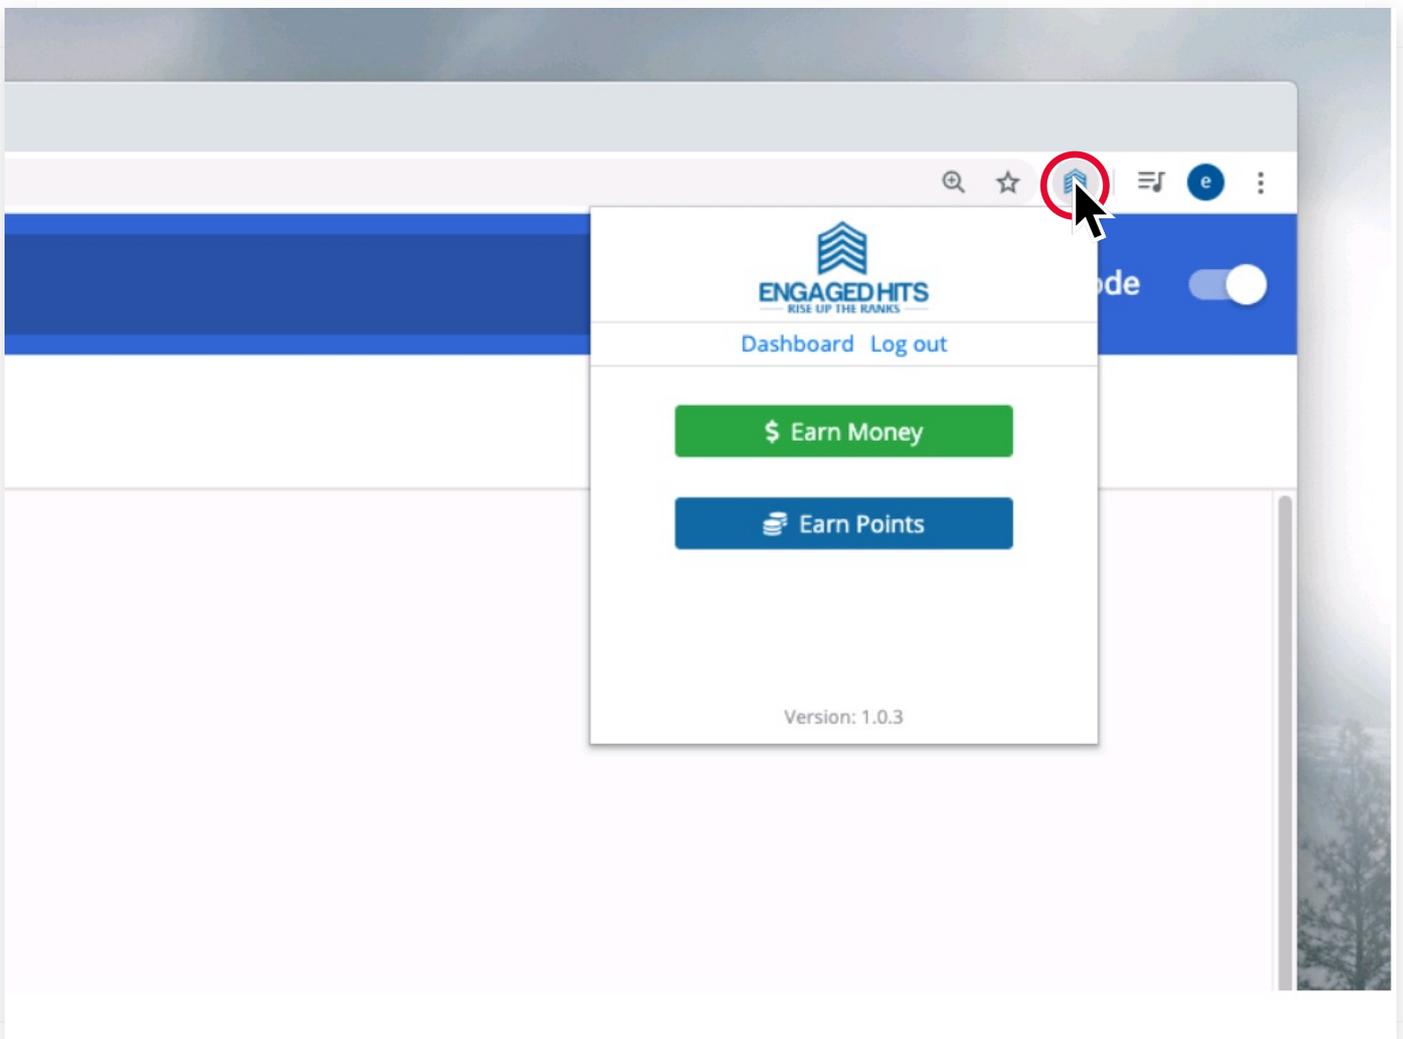

# chrome://extensions/

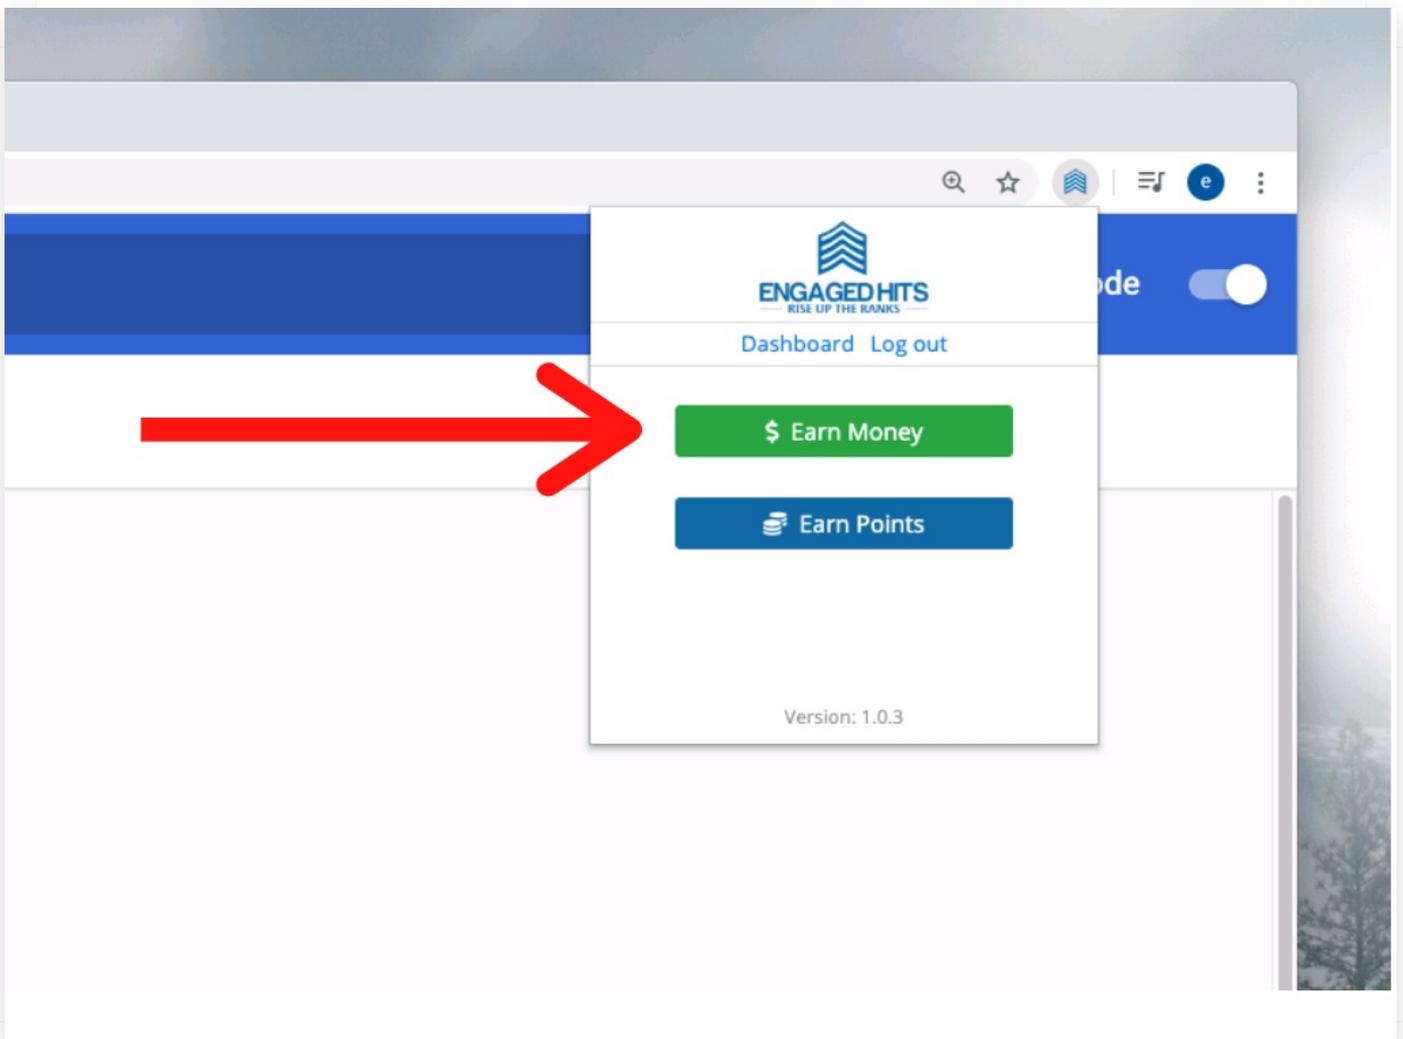

If you ever accidentally click on the disable button, you must type in Chrome://extensions into your url bar and make sure both toggle buttons are to the right.

Let me show you how to start using the extension by giving you a couple common examples of tasks you'll be doing.

If you want to earn money, be sure to click on the green button.

Then it will automatically play 10 videos without your involvement.

[Dashboard](#) [Log out](#)

**test - 8a257246**

**Video 3/10 | \$0.009**

Automated watch will end after **10** videos.

Stuck? [Restart the automation](#)  
or [skip the task](#).

[Click to revert to manual mode](#)

Version: 1.0.0

While it's running you'll see your rewards partner along with your referral ID and the progress bar and payout with some other options.

[Dashboard](#) [Log out](#)

**29:04**

You may run again once the  
countdown reaches zero.

After you've completed a round of 10 videos you will have to wait  
30 minutes before being after to continue again.

Dashboard Log out

test - 8a257246

 V 3/10 | \$0.009

Automated watch will end after 10 videos.

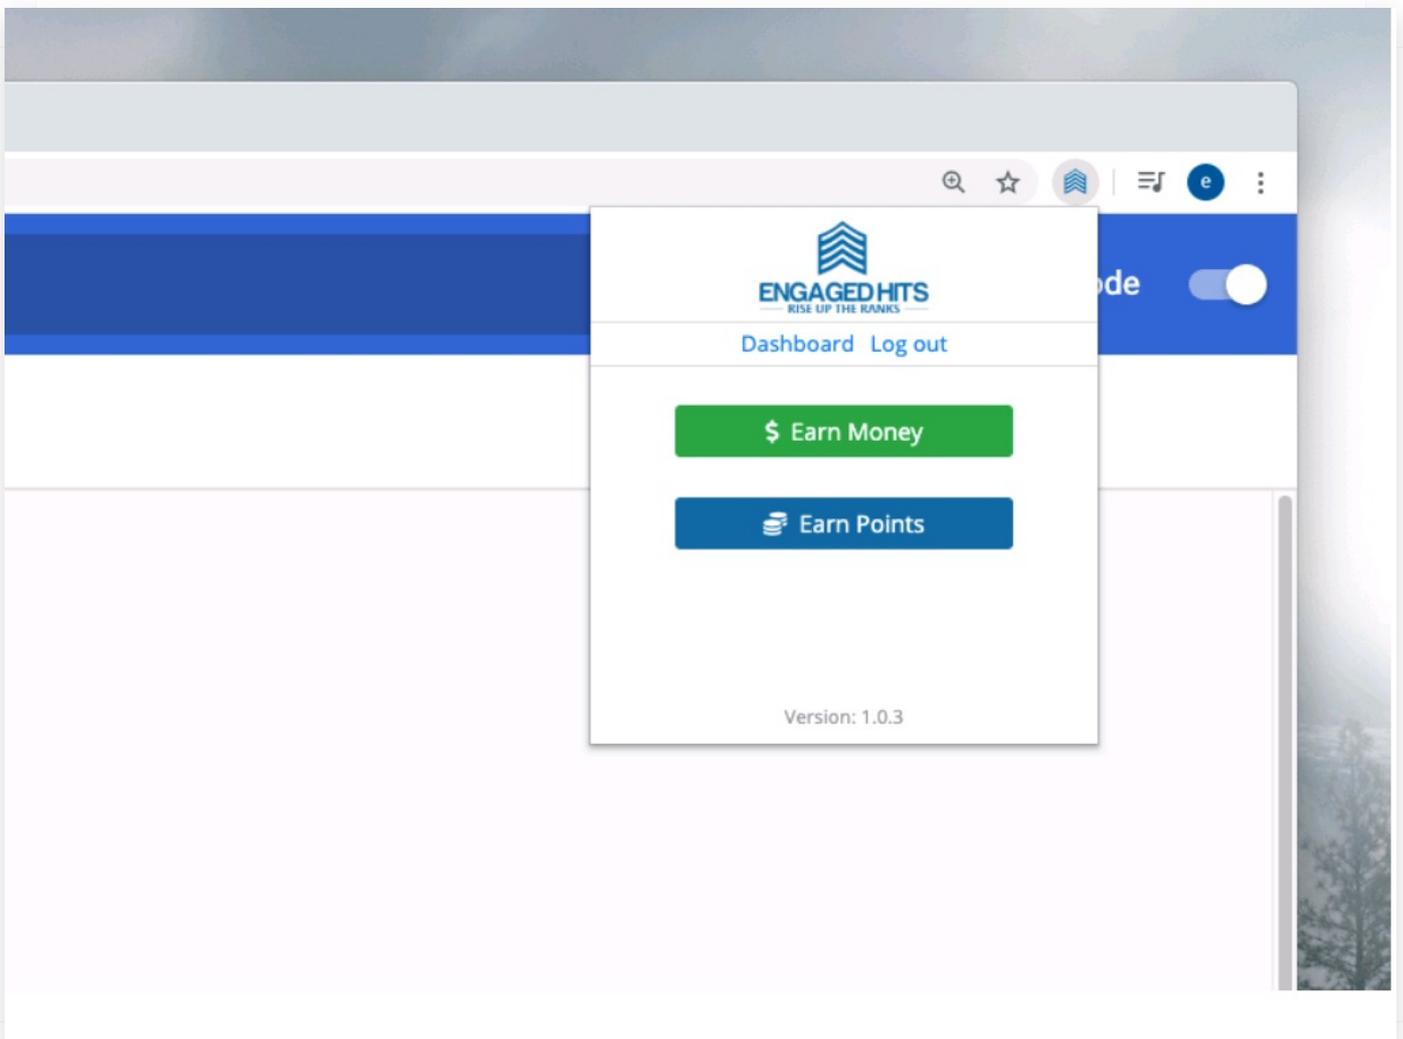

Stuck? [Click here to start the automation](#)

If you ever want to switch your rewards partner, visit their site and click our offer and you will be changed on the next round of 10 videos.

**android**

If you have access to an Android device there is a way to run Engaged Hits there as well. There is a tutorial on our help page.

If you want to earn points to promote your own videos, click on the blue button. You'll have this choice after each cycle of 10 videos.

The screenshot shows a web browser window with the URL [engagedhits.com/user/pages/show/help](https://engagedhits.com/user/pages/show/help). The navigation bar includes links for **Earn Money**, Campaigns, Stats, Credits, Refer, Download Extension, and **Help**. A red arrow points to the **Help** link. The main content area is titled "Help" and contains the following text:

Our site is 100% free.

Our users are comprised of like-minded people who want to rank their Youtube videos without having to spend money.

**EARNING CREDITS**

Here is how you earn points as credits which you can spend those credits on your own Youtube campaigns.

For every 1 minute you spend watching videos, you earn 100 points.

For every 1 minute your referrals spend watching videos, you earn 50 points.

It's obvious if you want to scale up and get lots of points you must refer others to join.

You can promote on Facebook groups, forums, PTC sites, Youtube channels...the sky is the limit.

**SPENDING CREDITS**

For every 1 minute you want others to watch your videos, it costs 300 points.

**WATCH THIS VIDEO TO KNOW MORE ABOUT HOW CREDITS WORK?**

Below the text is a video player with the title "How the Credits work". The video player shows a thumbnail with a play button and a progress bar. In the bottom right corner of the page, there is a blue circular chat icon.

To learn more about how you earn and spend points, click on our "Help" page.

If you need any help, click on the help icon located at the bottom right side of the screen.

From time to time, we may need to update the extension. So if you see this message, you'll need to download and install the updated version.

Get started by clicking "Download Updated Extension." Save the file and repeat the same process as when you initially installed this extension.
